NATURE OF THE HORSE: Horseback riding is classified as RUGGED ADVENTURE RECREATIONAL SPORT ACTIVITY, and there are numerous obvious and non-obvious inherent risks always present in such activity despite all safety precautions. No horse is a completely safe horse. Horses are 5 to 15 times larger, 20 to 40 times more powerful, and 3 to 4 times faster than a human. If a rider falls from horse to ground it will generally be at a distance of from 3 to 6 feet, and the impact may result in injury to the rider. Horseback riding is the only sport where one much smaller, weaker predator animal, the human, tries to control and become one unit of movement with another much larger, stronger prey animal, the horse, with each having a limited understanding of the other. If a horse is frightened or provoked it may divert from its training and act according to its natural survival instincts which may include, but are not limited to: stopping short; changing direction or speed at will; shifting its weight from side to side, bucking, rearing, falling, biting, kicking or running from what it perceives as danger. **WARNING:** Under Massachusetts law, and equine professional is not responsible for an injury to, or the death of, a participant in equine activities resulting from the inherent risks of equine activities, pursuant to Chapter 128, Section 2D of the general laws.

Signature of Parent or Guardian / Date

RELEASE OF LIABILITY: It is further understood that West Wind Equestrian, DBA. and its instructors, agents and employees are hereby released from all liability with respect to any accidents that might occur. I also understand that West Wind Equestrian, DBA. does not provide accident insurance.

CONDITIONS OF NATURE AND INSPECTION OF PREMISES: I understand that: West Wind Equestrian, DBA. is not responsible for total or partial acts, occurrences, or elements of nature that can scare a horse, cause it to fall, or react in some other unsafe way. Some examples are: Thunder, lightening, rain, wind, wild and domestic animals, insects, reptiles, which may walk, run, or fly near, or bite or sting a horse or person; and irregular footing on out-of-door groomed or wild land which is subject to constant change in condition according to weather, temperature, and natural and man-made changes in landscape. The parent or legal guardian have inspected the instructional facilities and are satisfied that all premise conditions are reasonably safe for the rider's intended purpose, usage and presence upon West Wind Equestrian DBA.
